Certificate of Appreciation

This is to certify that **Mr. Gaurav Raju Nawale**, a student of First Year B.Tech (Computer Science and Engineering), has successfully designed and developed an in-house software titled: "**CertiOwn - Certificate Generation System**" under the guidance of the Dr. Poorna Shankar, HOD, Department of Basic Engineering Science.

Project Overview: CertiOwn is a web-based platform developed to streamline the processes of certificate **generation, verification, bulk generations and bulk email distribution** within the institution. The software enables role-based access control and simplifies the tasks of certificate issuance and student communication through automated workflows and a modern user interface.

Technical Details:

- Backend: Python (Flask)
- Frontend: HTML, CSS, JavaScript,
- UI: TailwindCSS, Lottie
- Database: SQLite (MySQL-ready)
- Mailing: Celery + SMTP
- Tools: VS Code, Docker-ready

Institutional Impact: The system is designed to enhance the digital capabilities of the institution by providing a unified interface for certificate management, public verification and automated communication. Its modular design and extensibility make it suitable for future integration across various departments.

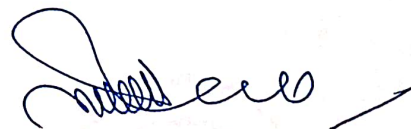

The college appreciates Mr. Gaurav Nawale's innovative contribution and technical proficiency in building this platform. His work aligns with the institution's vision for digitization and student-led innovation.

We wish him continued success in his academic and professional journey....!
