Summary

Computer Engineering student, startup founder, and automation developer experienced in scalable SaaS and institutional systems. Founder of CertiOwn, used for real-world academic workflows. Skilled in backend development, system design, and automation. Interested in Software Development, Automation, and AI systems.

Experience

Technical Secretary – ICEM Pune

Jul 2025 – Present

- Led technical operations, documentation, and digital coordination for events
- Managed AV systems and ensured smooth multi-team execution

Startup & System Development – CertiOwn

Nov 2024 – Present

- Built certificate automation platform for institutional workflows
- Managed certificates for FDPs, SIH Hackathon, MSME 5.0, and academic activities
- Developed BoS certificate/award management system
- Reduced manual effort and improved efficiency

Campus Ambassador – Techfest IIT Bombay

Jul 2025 – Dec 2025

- Drove student outreach and participation for Asia's largest tech fest

Projects

CertiOwn – Certificate & Credits System (SaaS)

- Built full-stack platform for certificate generation, verification, and email automation (GitHub)
- Integrated Celery and Excel-based bulk workflows
- Mentored by Dr. Nilesh Uke & Prof. Vijay Kumar Saini (1.5+ years)
- Designed scalable architecture for SaaS deployment

UBA Portal – ICEM (IITB & IITD Initiative)

- Built portal for rural data management and institutional reporting
- Focused on dashboards and structured workflows
- *Live: uba-icem.vercel.app*

Conference System – SDETM ICEM

- Developed conference portal with submission and management modules
- Designed UI/UX and handled deployment
- *Live: sdetm-icem.vercel.app*

RPA Automation Systems

- Built UiPath workflows for data, email, and repetitive tasks automation

Publication

The Future – Brain Computer Interface with AI, NCTAAI 4.0 (ISBN: 978-93-342-4014-6)

Certifications

CS401: Operating Systems – Saylor University (2026)

UiPath Automation Developer Training

ICEM Internal Hackathon – 2025

Education

B.Tech Computer Engineering

2024 – 2028

Indira College of Engineering and Management, Pune

Skills

Python, C, C++, Java, Flask, HTML, CSS, JavaScript,

RPA (UiPath), Celery Automation, Git, GitHub, Docker, NumPy, Pandas
